

DOCUMENTATION

Transactions Audit Data and Reports

HEAL Software Inc.

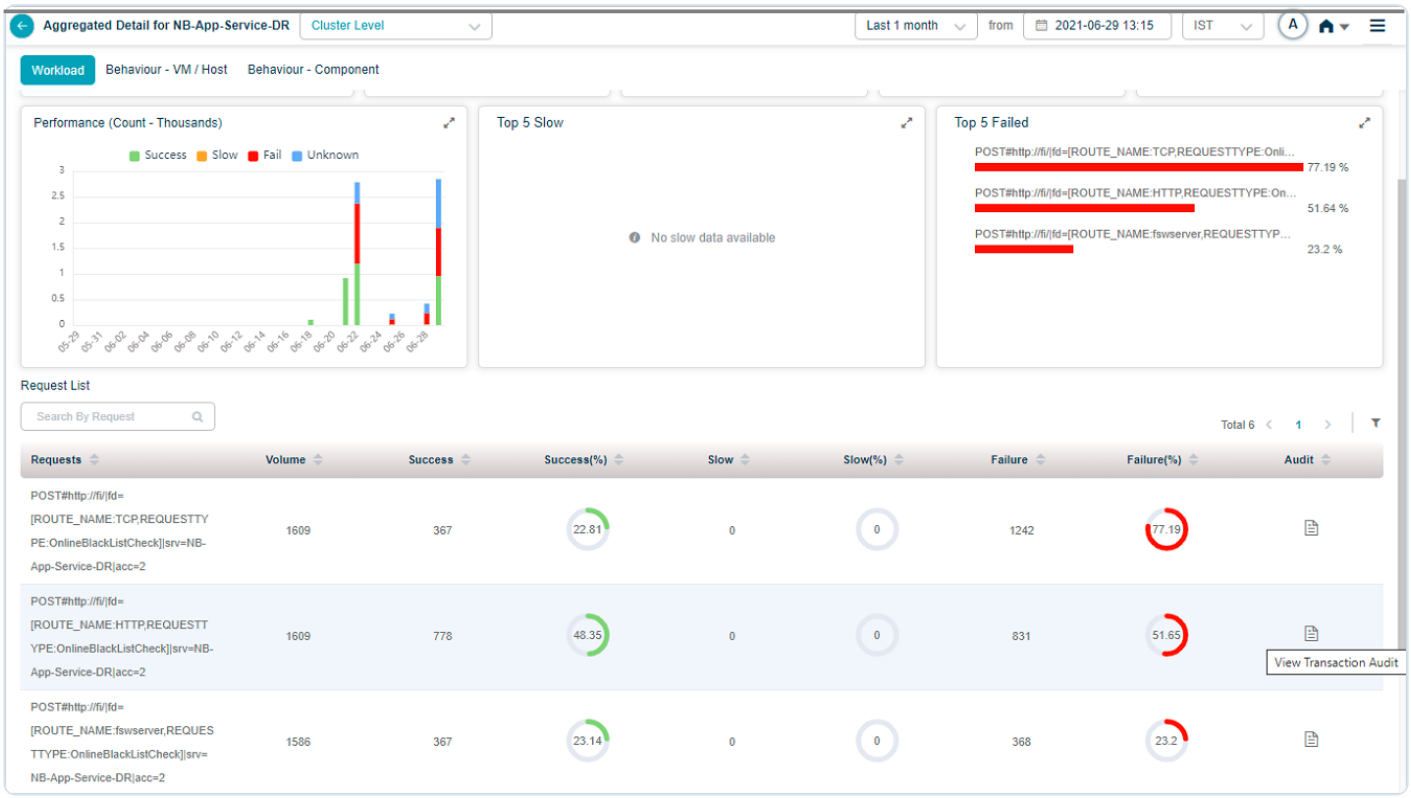

HEAL audits selected transactions and captures the extra headers in the post body. The Audit column on the Workload screen exposes that data for each transaction.

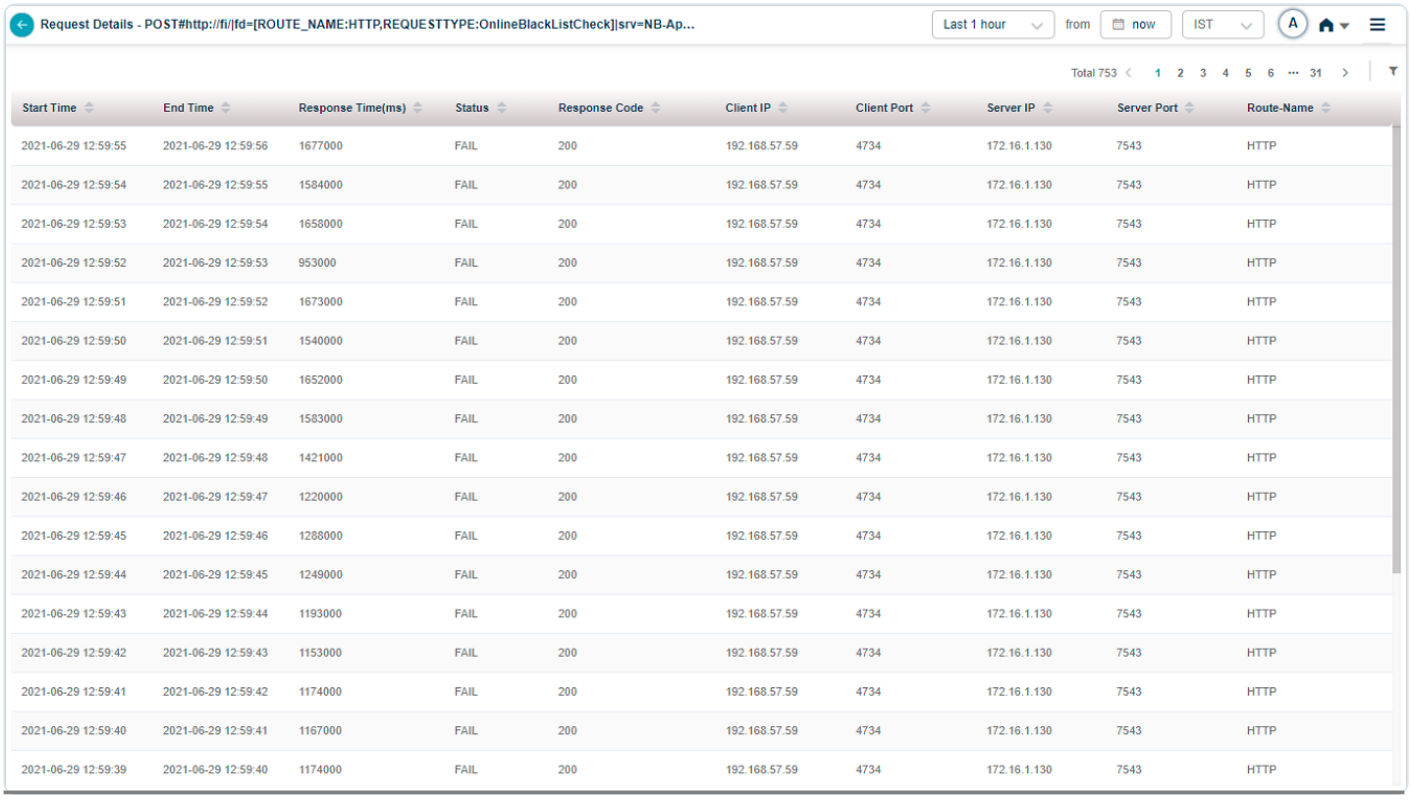

View transaction audit

Hover the icon in the **Audit** column. The **View Transaction Audit** option appears.

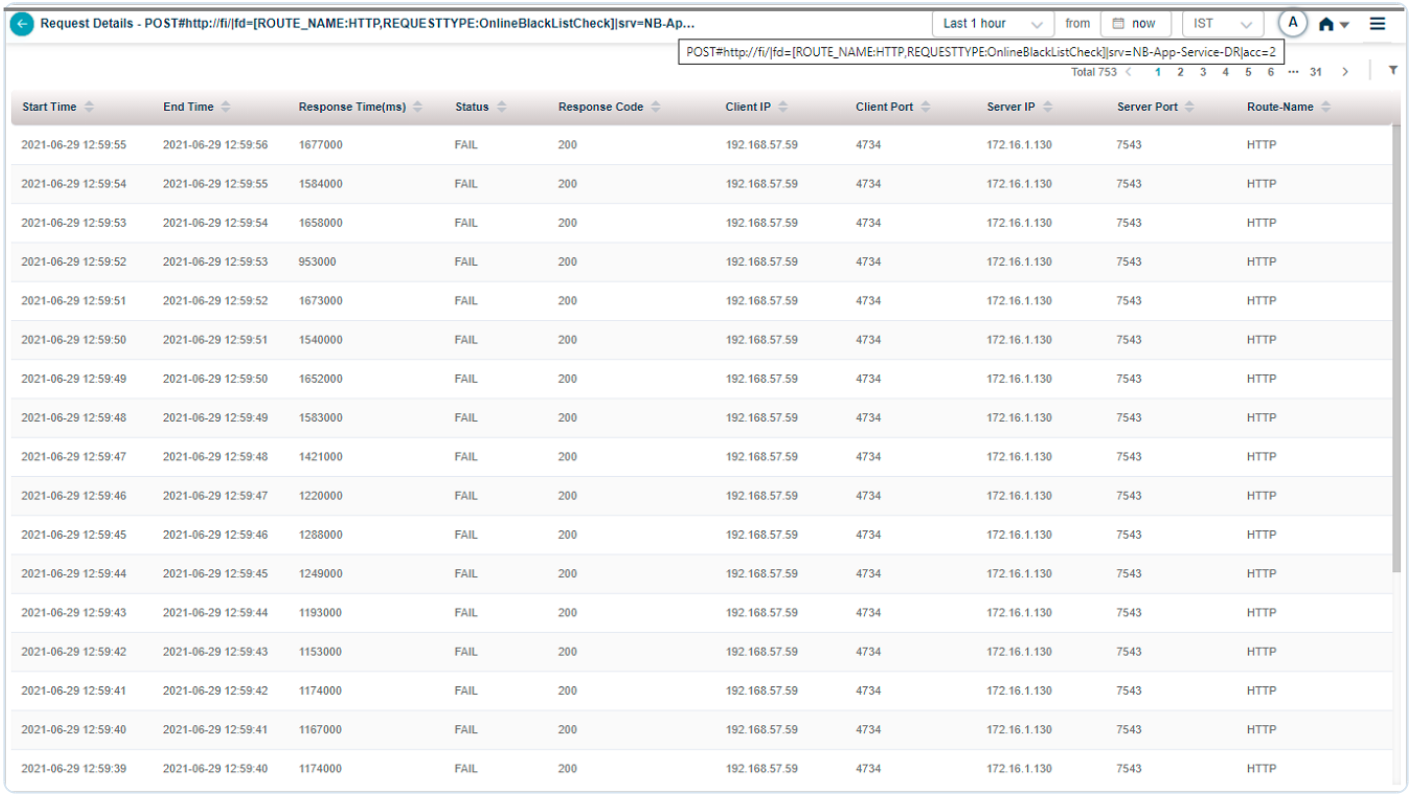

HEAL Confidential. All Rights Reserved 2026

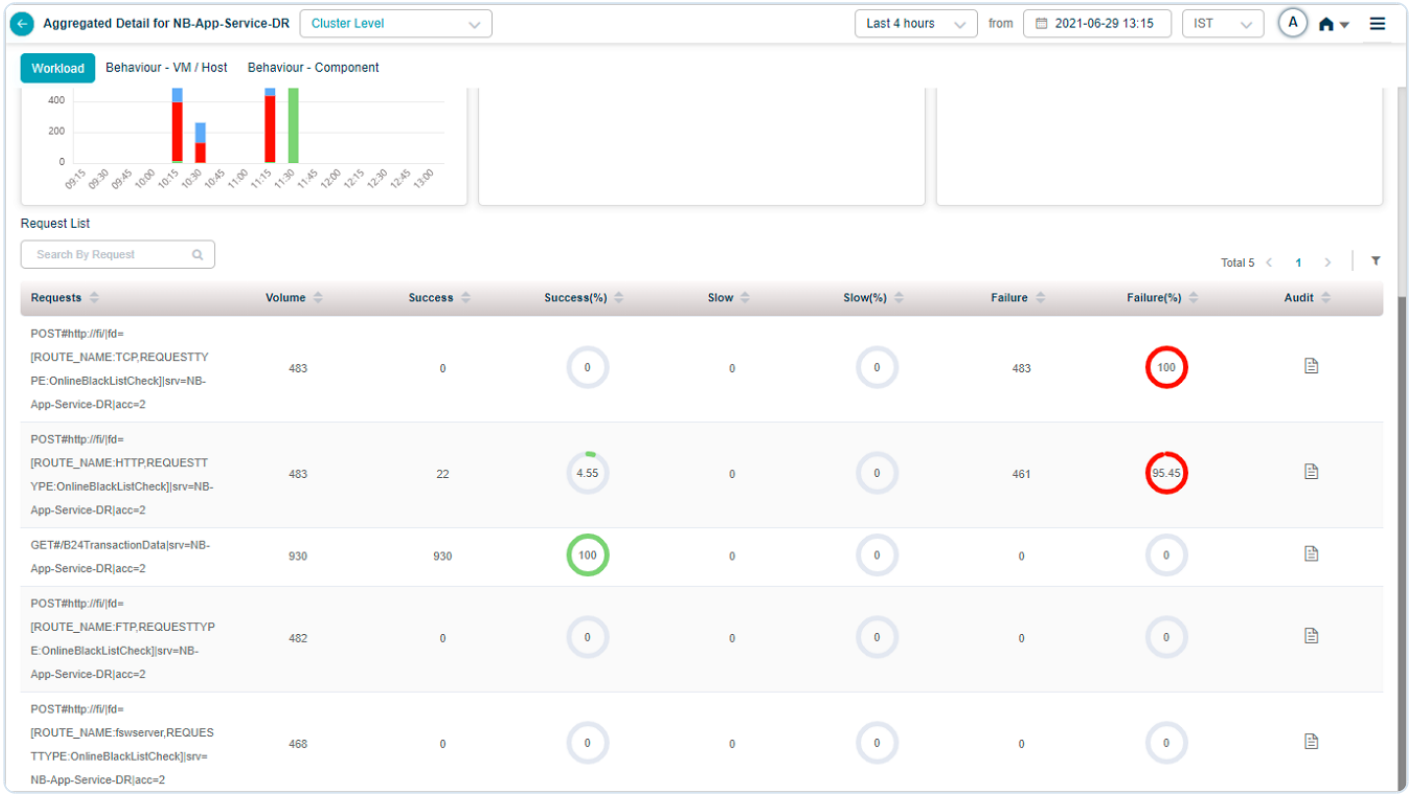

Click **View Transaction Audit**. The Request Details screen shows the captured request and response. Column headings come from the **Display Name** values you set in the Control Center. Column values come from the fields you specified in the Control Centerâ??s GET or POST Variable boxes.
